INSTITUTIONAL PRESENTATION

Largo de São Francisco de Paula, 34

A new mixed-use proposal in Rio de Janeiro's Historic Center.

RIO DE JANEIRO · 2026

An asset for living, working and connecting.

The development proposes the transformation of a Downtown Rio building into a mixed-use hub, integrating a mall, event spaces, common areas, rooftop and 129 studio residences.

129

studio residences

Reoccupation and new momentum for Downtown.

The project connects with the revitalization of Downtown Rio, combining residential occupation, retail, experiences and business-related activities.

Residential units and commercial areas help increase activity in the surroundings throughout the week.

LIVING · RETAIL · EXPERIENCES · BUSINESS

A central, historic and connected address.

Largo de São Francisco de Paula, 34 is in Downtown Rio, close to Uruguaiana metro station, Praça XV, Santos Dumont Airport and major business, cultural and commercial hubs.

01 **Uruguaiana metro**

02 **Praça XV**

03 **Santos Dumont Airport**

04 **Historic Center**

A structure for different uses.

The building has approximately 10,800 m² of built area and was redesigned for mixed use.

10,800 m²

approximate built area

01 **Mall on the lower floors**

02 **129 studio residences**

03 **Common areas, terraces and rooftop**

A mall conceived as an experience platform.

The commercial floors can host shops, showrooms, activations, events and conventions.

01 **Market testing**

02 **Brand experiences**

03 **Pop-ups**

04 **Physical-digital connections**

Housing as part of urban activation.

129

residential units

28.69–46.39 m²

The residential presence expands building occupation and helps keep the surroundings active beyond business hours.

A gateway to the Brazilian market.

The Flowin.Rio proposal brings together residences, showrooms, physical and digital infrastructure, market support, services, corporate concierge and networking.

01 **Residences**

02 **Showrooms**

03 **Infrastructure**

04 **Market support**

05 **Concierge**

06 **Networking**

More movement for Downtown.

The development has the potential to bring residents, visitors, businesses and consumers to the area.

01 **Local commerce**

02 **Economic activity**

03 **Tourism and culture**

04 **New connections**

A region with a significant presence of compact units.

1,229

units analyzed

1,121

one-bedroom or studio units

R$ 11,958.79/m²

average asking value in the sample

NBA market study, June 2025
